

OODLES OF DOODLES

A therapeutic activity book for hospitalized children

Oodles of Doodles is no ordinary activity book. It is uniquely designed to give pediatric patients an emotional outlet through creative expression and humor. Based in principals of **expressive art and narrative therapies**, *Oodles* helps reduce boredom and fear, and gives patients a much-needed sense of control, as well as a safe place to express their worries and fears. This 48-page book features engaging artwork by famous illustrators, including Mary Grand Pré, best known for her art in the *Harry Potter* books. The vibrant workbook contains therapeutic activities, mazes, and coloring pages that are age-appropriate and fun. Also available in **Spanish**.

Oodles of Doodles helps distract, engage, and inspire hospitalized children, positively impacting their emotional well-being. This book is a must-have for those wishing to help meet the emotional needs of children in their care, allowing those who need additional support remain playful and content. *Oodles* has been **endorsed** by the Lance Armstrong Foundation, Starlight Children's Foundation, The Make-A-Wish Foundation, and Society for the Arts in Healthcare.

Add this unique resource to your tool kit today! *Proceeds help Art with Heart reach kids through the power of creativity.*

"I had 18 surgeries. I was in bed when I got *Oodles of Doodles*. It took the pain away while I was doing it. It is so cool!" ~ VICTORIA, 10 YEAR OLD PATIENT

"*Oodles* is a wonderful piece of art and literature that stimulates the user's creativity and builds their self-esteem. Perhaps more importantly, the activities in the book – thoughtfully designed and masterfully illustrated – allow users to see beyond their stay in the hospital to life after their treatment." ~ THE LANCE ARMSTRONG FOUNDATION
